

POST-COURSE SURVEY

- 1.] What is your name?
- 2.] On a scale of 1-5, how confident do you feel about using Python for programming tasks?
How would you rate your overall proficiency in Python? (Beginner, Intermediate, Advanced)
- 3.] What specific areas of Python do you feel most confident in, and where do you feel you need more practice?
- 4.] How do you rate your ability to break down a problem into smaller, manageable parts and implement a solution in Python?
- 5.] On a scale of 1-5, how confident are you in using L^AT_EX for document preparation? How would you rate your overall proficiency in L^AT_EX? (Beginner, Intermediate, Advanced)
- 6.] How confident are you in creating a multi-page report or academic paper in L^AT_EX, including sections, subsections, and references?
- 7.] How comfortable are you with using and modifying L^AT_EX templates (e.g., for resumes, presentations, or reports)?
- 8.] How did the course structure (lectures, assignments, projects) help you learn Python effectively?
- 9.] What could have been done differently in the course to improve your understanding of Python and L^AT_EX?
- 10.] How do you plan to use Python in your future academic or professional work?
